DESTRUCTIVE FIRES.

Great Damage Done in New Brunswick.

FOREST FIRES ARE RAGING.

Hundreds of Miles of Timber Threatened and Villages in Great Danger of Being Destroyed—The Fires Beyond Control. Other Losses by Fire.

ST. JOHN, N. B., June 10.—Moffat's saw mill, Murray's lumber mill and James Gillie's dwelling, at the head of the tide-water, Restigouche county, were totally destroyed by fire yesterday. Heavy forest fires are raging in the woods opposite Campbellton, on the opposite shore. The whole Gaspé peninsula, over one hundred miles in extent is threatened, and the village of Nouvelle is in danger. People are fighting fires in various directions, and as extreme drouth prevails, everything in the path of the flames burns like tinder.

Farmers have lost crops, fences and out-buildings without number. Nothing but rain will prevent a general disaster. The loss already has been very great. Last night fire appeared in the woods skirting this city and fences had to be torn down to prevent its onward march. Fires are sweeping away the woods between Penobscot and Anagnine, and are destroying a great deal of valuable timber.

Third Time Destroyed.

PHILADELPHIA, June 10.—Edward Jones' lace and rug mills, at 8127-17 Frankford road, were completely destroyed by fire yesterday. The flames were discovered by Policeman Shinn, of the Twenty-fourth district, who turned in an alarm immediately, but when the firemen arrived the entire structure was burning. The origin is unknown. The loss will aggregate \$30,000, on which there is but \$14,000 insurance. This is the third time the mill has been burned, and Mr. Jones is prostrated by his loss.

Furniture Factory Burned.

ADRIAN, Mich., June 10.—The Adrian furniture factory burned at midnight. The fire started in a pile of shavings that was in the engine room. The loss above insurance is estimated at \$20,000. The cause is not known, as the factory had been shut down for two or three days for repairs. One hundred and fifty men are thrown out of work.

VIEWED BY THOUSANDS.

The Remains of Canada's Late Premier Lying in State.

OTTAWA, Ont., June 10.—The body of Sir John Macdonald was brought from Earncliffe with an escort of Dominion police shortly after 3 o'clock yesterday morning and placed in the senate chamber.

Both houses of parliament adjourned Monday afternoon until after the funeral of the late premier. The leaders on both sides joined in eulogy of the dead statesman.

In the senate chamber, immediately upon adjournment, the decorators began their work and did not finish until long after midnight. All the senators' desks and chairs were removed and the red carpet covered with white. The catafalque, upon which rests the casket, was draped in black and behind it the picture of her majesty rested against a large shield covered with the union jack and surrounded by a bank of flowers. At 10 o'clock yesterday morning the doors were opened and the public allowed to enter and look on the features of the dead. A steady stream passed inward, and after passing the casket made an exit by the two doors behind the throne.

Floral tributes in great numbers are arriving at Earncliffe. Among them is one from Princess Louise and Lord Lorne—a St. Andrews cross in white roses and pink carnations with violet scroll bearing the words "Lord and Louise."

The desk of the late premier in the house of commons is heavily draped, and lying prone upon it is a shield of white roses bearing the legend, worked in smaller flowers, "Our Chief."

The state funeral to-day will be the most imposing ever held in the Dominion. The governor general and staff, the lieutenant governors of the provinces, members of the cabinet, judges and other officials and a large body of troops will be in the procession which will escort the remains to the railway station.

DESTRUCTIVE WATER SPOUT.

Great Damage Done in the Poudre Valley in Colorado.

FORT COLLINS, Col., June 10.—A water spout burst upon the Poudre valley above this place late yesterday afternoon and huge volumes of water came pouring down the valley, sweeping everything before it. One hundred yards of the embankment on the Union Pacific railroad was completely destroyed. Two railroad bridges near Laporte are gone as are two others between that village and Fort Collins.

By the giving away of the railway embankment, the water spread over the surrounding farms and gardens, destroying all the growing crops within a radius of from five to seven miles. Several houses in this city are almost covered by water and were badly damaged. The loss cannot be estimated, but it will foot up in the hundreds of thousands.

MARION, Ind., June 10.—Governor Steele, of Oklahoma, who is here as a member of the board of soldiers' home managers, denies that he has been offered the pension commission by the president, and says that it is his intention to return to Oklahoma after a tour of inspection, which will include the different soldiers' homes in the country.

RECALLED FROM ROME.

A Rumor that Minister Porter is Coming Home to Stay.

NEW YORK, June 10.—A special to The Press from Washington says: It is reported on high authority that United States Minister Porter has been recalled from Rome, not granted a vacation, as at first reported.

If this is true it is President Harrison's answer to the withdrawal from Washington of the Italian minister, Fava, in the heat of Marquis Di Rudini's discomfiture over the New Orleans affair.

Both governments will now be represented by secretaries of legation. No one connected with the state department will talk about the matter. The government may have had some reason for saying about its instructions to Minister Porter at this time. It may have been thought that on his explanation to the Italian government that he was ordered to leave Rome because of Baron Fava's recall from Washington, that the Italian government would see the position in which it was left by that hasty act and recover from it by sending Baron Fava or a new minister back to Washington. In that event there would have been a desire on the part of the United States not to humiliate Italy further.

The president is maintaining a vigorous as well as dignified foreign policy.

SENSATION IN COURT.

An Italian Murderer Pleads Guilty on Account of the New Orleans Affair.

CAMDEN, N. J., June 10.—Phillipe Dominico Cocco, the Italian murderer, took the breath away from Prosecutor Jenkins in the Camden county court yesterday by pleading guilty to an indictment for murder and throwing himself on the mercy of Judge Garrison.

Cocco killed his sister-in-law, Miss Giovanni Dianore, at Cedar Brook, Winslow township, last March. He started from Philadelphia, it is alleged, with the expressed purpose of killing his wife, who had refused to live with him. Miss Dianore interfered with this project and stepped between him and his wife with an ax, whereupon he struck her a blow in the neck with a stiletto, which caused her death in less than two minutes.

Mr. Wartman, who was appointed counsel for Cocco, went on to say that the recent lynchings in New Orleans had so inflamed public sentiment that it would be, in his judgment, exceedingly hazardous for his client to trust to the calm, dispassionate judgment of twelve citizens. He therefore chose rather to trust the unbiased and fair decision of a learned court and would plead guilty, leaving it for the court to hear evidence so as to fix the grade of guilt.

ON THE TRACK OF A TRAGEDY.

Camden, New Jersey, Started Over the Murder of a Young Woman.

CAMDEN, N. J., June 10.—Facts which point to another murder came into the possession of the Camden police authorities and are being investigated under the supervision of Chief Dodd. Shortly after Monday midnight Miss Mary Coleman, a young woman living at 926 Beach street, Coopers Point, close to the Delaware river, heard two agonizing screams from a woman. On looking out of the window she saw a young girl of stout build struggling in the grasp of two men. "For God's sake, don't! Don't, for God's sake!" shouted the young woman.

A second later there was a splash in the Delaware and the two men ran away and were soon lost to sight. Yesterday morning the body of a young woman, who, from papers found on her person, is supposed to be Miss Blanche Humphreys, of this city, was found floating in the Delaware near Morris & Matthews' ship-yard, Coopers' point, and the police think they are on the track of a tragedy.

BISHOP GILMOUR'S SUCCESSOR.

Three Names Recommended to the Pope for a Selection to Be Made.

CINCINNATI, June 10.—At the Cathedral parsonage yesterday three names were selected to be immediately sent to Rome as candidates to succeed the late Bishop Gilmour, of Cleveland. The following bishops attended the council: Bishops Radamacher, of Nashville; McCluskey, of Louisville; Schatard, of Vincennes; Maes, of Covington; Waterson, of Columbus; Foley, of Detroit; Dwenger, of Fort Wayne, and Chatard, of Indianapolis.

One name was taken up and decided upon as "worthy," another as "worthier," and the last one "worthiest." It is not always the case, however, that the priest styled "worthiest" is selected at Rome. It is said the names were Revs. Buff, vicar general, of Cleveland, worthy; Radamacher, of Vincennes, Ind., worthier, and Moeller, of Cincinnati diocese, worthiest.

Gibson Grown Gray.

CHICAGO, June 10.—A special dispatch from Peoria, Ill., says: The news that the indictment in the Federal court against George J. Gibson, late secretary of the whisky trust, had been quashed, was received with joyfulness at the trust headquarters. Since the Shufeldt conspiracy first came to light Gibson has aged wonderfully; his face is haggard and he has grown gray.

A Young Doctor Poisoned.

PITTSBURG, June 10.—Dr. Griffith J. Thomas, a resident physician at Mercy hospital, died yesterday of blood poisoning. On Sunday he assisted in a surgical operation, and the poison entered his system through a boil on his left wrist. He was 29, and took first honor at Jefferson medical college, Philadelphia.

Not an Early Rose Failure.

CYNTHIANA, Ky., June 10.—Robert Rose, grocer and fruit dealer, made an assignment yesterday to F. Patterson for the benefit of his creditors. Rose will pay about ten cents on the dollar. Cincinnati parties will be big losers.

COMING CONGRESS.

What Will Be Done in the Way of Appropriations.

HEAVY REDUCTIONS TO BE MADE

Representative Forney, of Alabama, Who Was One of the Members of the Last Appropriation Committee, Thinks That the Annual Appropriations Can Be Cut Down Seventy-Five Million Dollars. Other Washington News.

WASHINGTON, June 10.—Representative Forney, of Alabama, who was a member of the appropriations committee in the last congress, is now in Washington, and in an interview on the matter of appropriations by the next congress intimates that heavy reductions will be made as compared with those of the last house. Mr. Forney believes the annual appropriations can be cut down at least \$75,000,000 or \$100,000,000, making the total about \$425,000,000. When asked where the reductions would likely be made, he replied:

"There is a permanent appropriation of \$47,000,000 for buying bonds that can be cut off. Then the \$15,000,000 paid out for refunding the direct tax will not have to be repeated. We can save \$5,000,000 by not erecting unnecessary public buildings. We can lop off numerous offices. I am in favor of spending a few millions in the navy and also of less extravagance in the matter of fortifications. There are numerous ways in which to cut down, and I am sure we will find them. I suppose there will be a determination to confine the river and harbor bill to the most important and necessary items. Personally, I am in favor of a river and harbor bill when the improvements proposed are of benefit and the money is not simply wasted."

Searching for Diamond Fields.

WASHINGTON, June 10.—Search is being made by a party of Americans for diamond fields believed to exist near Tlaxcopec, in the comparatively inaccessible state of Guerrero, Mex. It is an historical fact that Gen. Vincento Guerrero, a patriot of the first Mexican revolution, after whom the state is named, came suddenly into possession of a number of rough diamonds of great size and value, and died without disclosing where he obtained them. It is believed they were discovered near the site now being explored.

Col. Meredith Exonerated.

WASHINGTON, June 10.—The treasury committee which has been investigating the charges preferred by the Knights of Labor against Col. Meredith, chief of the bureau of engraving and printing, for using inferior material, has completed its report and will submit it to Secretary Foster. The report fully exonerates Mr. Meredith, and shows clearly that there was a conspiracy to force him out of office, or else allow the bureau of engraving and printing to be run by the Knights of Labor.

Invited to Buffalo.

WASHINGTON, June 10.—The president yesterday received an invitation to attend the coming reunion of the Grand Army of the Republic, Society of the Potomac, at Buffalo, N. Y. It was presented by a delegation headed by Collector Morgan. The president said he would accept if the public business permitted his absence from Washington at the time.

Considered by the Cabinet.

WASHINGTON, June 10.—The principal question considered at the cabinet meeting yesterday was that of extending the four-and-a-half per cent. bonds at 2 per cent. interest, but no conclusion was reached.

Foster Coming Home.

WASHINGTON, June 10.—Secretary Foster will go to his home in Ohio next week to remain several days.

Ticket Thieves Locked Up.

CHATTANOOGA, June 10.—H. H. Glover, Lamar Patterson and J. H. Everett, three young men of Macon, Ga., are in the city jail. The charge against them is breaking into the Central railroad ticket office at Macon several days ago and stealing a number of tickets to western points. Two unlimited tickets were disposed of here yesterday morning and by aid of brokers the men were arrested on outgoing Cincinnati Southern trains. A valise they had was filled with tickets. They have confessed.

Locked Up for Killing His Child.

CINCINNATI, June 10.—Ernst Giesler, a butcher, aged 35, living at 49 Findlay street, was locked up at the Bremen street station house yesterday on a charge of murder made by his wife, who claims that her husband had, the previous night, maliciously kicked over a baby carriage which held their three-months-old infant, thus causing the baby to fall to the floor and receive injuries that resulted in its death. The case is a peculiar one and will receive a rigid investigation by the police.

Large Shipments of Coal.

PITTSBURG, June 10.—The first shipment of coal that has left this city for several weeks started from here yesterday, and will be followed by more to-day. It is estimated that between \$15,000,000 and 20,000,000 bushels of coal will be sent out on the present rise in the river. Of this amount nearly 6,000,000 bushels will go to Cincinnati. The balance will be distributed at points between that city and New Orleans.

Curious Coincidence.

EAU CLAIRE, Wis., June 10.—Mrs. Frances James, widow of the late George P. R. James, the English novelist and historian, died here yesterday, aged 60. Her distinguished husband died at Venice thirty-one years ago yesterday.

CONDEMNED BY THE POPE.

The Single Tax Theory Inconsistent With the Catholic Belief.

NEW YORK, June 10.—Archbishop Corrigan's sermon on Sunday on that part of Pope Leo's encyclical which referred to the right of private ownership in property excited much comment Monday. If the archbishop's interpretation of the pope's letter is the correct one, the question is, indeed, an interesting one, especially to such Catholics as may be exponents and followers of Henry George's single tax theory.

The archbishop seems to be very decided in the opinion regarding the relationship existing between the members of the Catholic church, the pope and the outside world. The doctrines of the encyclical are infallible to the true Catholic, because they are the utterances of the pope, and according to the archbishop, these who deny the right of private ownership in land, which in his interpretation is clearly affirmed by the encyclical, must be anti-papists, and anti-Catholics.

The upholders of the single tax philosophy, however, do not seem to fear the pope's attack of them in his encyclical. Henry George last evening spoke very freely on the pope's statements and Archbishop Corrigan's rendering of them.

"I have seen the text of the encyclical, said he. 'It bears out the construction which Archbishop Corrigan puts upon it, and although somewhat vague in its terms it is clearly intended as a condemnation of what is briefly known as the single tax.'

"I cannot now speak of the arguments of the pope and his attempt to show that there is no difference between ownership in the products of labor and a similar ownership of the elements necessary to labor, but will take some other opportunity to do so.

"While it will give pain to many Catholics, including many priests and some bishops, to find the head of their church placing himself in so illogical a position, our cause will not suffer by the pope's attack. To essay to defend by an argument private property in land—the absolute ownership by some of what the Creator provided for all is only to call attention to its monstrous wrongfulness and poverty breeding wastefulness."

STEAMER ADVICES.

Epidemic of Grip Among Lepers—Water Famine—Oil Ware House Burned.

SAN FRANCISCO, June 10.—The steamer Australia, from Honolulu, brings news that the grip is epidemic in the islands and that in the lower settlement nine-tenths of the lepers are down with it. Water is very scarce in the country, and when the Australia left the reservoirs were nearly empty. If no rain has fallen since a water famine must now prevail.

Oil Warehouse Burned.

A few hours before the Australia sailed, the government kerosene warehouse took fire and smoke could be seen issuing from the burning structure when the steamer was sixty miles at sea. The loss is estimated at over \$200,000.

White Woman Outraged by Negroes.

LEXINGTON, Ky., June 10.—A terrible crime was committed by three negro boys near Sharpsburg yesterday morning. They went to the house of B. F. Ravenscroft after ascertaining that he was not at home, and told Mrs. Ravenscroft that her husband was lying helplessly drunk in a secluded part of the road. The woman left the house for the purpose of bringing him home, and when she had reached the place indicated was assaulted by the negroes, who were lying in wait, and repeatedly outraged. One of the brutes was captured, and there is a strong probability that he will be lynched.

The Last Spike Driven.

WESTON, W. Va., June 10.—The last spike was driven in the extension of the West Virginia and Pittsburgh railroad, from this place to Sutton, W. Va., yesterday, and the road will be formally turned over to the company next Monday. The line is the first and most important of the series of roads which Senator Camden is building through the central portion of West Virginia. Another extension, projected from Sutton to Charleston, and now under way, will give a direct route via rail from Pittsburgh to the Kanawha valley.

People's Party Not in It.

LACROSSE, Wis., June 10.—The state convention of the Farmers' Alliance met yesterday, and President Butt delivered his annual address. The chief point of the address was a declaration that the recent convention at Cincinnati, which determined to form a People's party, was not a farmers' convention, and will not be recognized as such, and that when the Farmers' Alliance convention is held Feb. 22, to put a National ticket in the field the alleged People's party will not be in it.

The Huger Feared Lynching.

PARIS, Ky., June 10.—A mob of colored men marched the streets last night ready to repulse any mob that should attempt to take from jail, and lynch the colored man Dick Johnson, charged with forcibly hugging respectable white ladies on the street. Marshal Mernaugh, assisted by several citizens, jailed seven men and one was shot while trying to escape. There was no thought of mobbing the hugger, although public sentiment is much against him.

Hundreds Homeless.

ST. LOUIS, June 10.—A dispatch from the City of Mexico says that a water spout burst near San Luis Paz, in the state of Guanajuato, Sunday, the water from which swept away many houses and cattle, uprooted trees, in fact for a space of three miles, the width of the current, the country was completely devastated. It is not known how many lives have been lost. Hundreds of people are homeless and in a destitute condition.

A MEETING of the Democratic State Central Committee will be held at Louisville to-morrow. The party's nominees will be on hand, and plans for the campaign will be agreed on. They propose to make it lively all 'round.

"WHEN chased down, the tin-plate mills are found to be run by jack-o'-the-lantern men," says the Chicago Tribune, a staunch Republican journal. Billy McKinley will not circulate the Tribune as a campaign document in the approaching gubernatorial contest in Ohio.

"Stop lying and build some tin-plate mills," tersely remarks the Chicago Tribune, the leading Republican journal of the Northwest, to the Philadelphia Press, the Republican organ of the Keystone State. In the language of the Cincinnati Enquirer, why do the heathen rage?

A VIRGINIA sheep-raiser wants the Wool Growers' Association to explain the effect of the McKinley bill on the price of wool. He says: "Last year the farmers in this section received 26 cents per pound before the tariff was raised, but now, under an advance of duty, the price has fallen to 23 cents per pound."

This is just what the Democrats predicted. They warned Mr. McKinley that an increase in the duty would result in lessening the demand for wool and the price would then fall.

The Courier-Journal says: "Few people understand that by the adoption of the new Constitution our elections of members of the Legislature will pass under the jurisdiction and supervision of the Federal Courts."

This is in line with some of the C.-J.'s other "arguments" against the proposed new Constitution. It figures out that under the new organic law of the State, members of the Legislature will be chosen at the same time members of Congress are elected, and that "this conjunction gives to the Federal authorities control of the elections in which the people of Kentucky select their own Representatives," and "will give rise to great bitterness of feeling and great opportunities for the use of Federal officers in control of State elections."

The Courier-Journal ought not allow itself to be so perturbed over a little thing like that. It knows very well the Federal authorities will never control State elections in Kentucky.

For the Farmer.

The wheat crop of South Australia and New Zealand is reported to be 2,000,000 bushels short and of poor quality.

In portions of Mason County farmers have about finished setting tobacco. The season has been a fine one in this section.

The corn crop of 1890 was the smallest reported in nine years in proportion to the population, as the previous one was the largest. As stated by Statistician Dodge, the reduction is about 30 per cent.

Last month's receipts of live stock at Chicago were 220,683 cattle, 13,446 calves, 560,115 hogs, 185,881 sheep, and 9,871 horses. For May last year the figures were 299,090 cattle, 9,767 calves, 538,977 hogs, 172,822 sheep, and 11,057 horses.

The percentage of the wheat crop of 1890 remaining in the hands of growers is, according to the department report, less by 15 per cent than the average of the previous ten years and less by 33 per cent. than the reserve following the big crop of 1884.

There is great complaint all over Barren County over the ravages of the green louse in wheat fields. The pests are attacking the grain by the millions, and the farmers assert that unless the head of the wheat is too hard to be injured the crop will be ruined. The louse attacks the head and sucks it dry.

Whooping Cough.

"We have had an epidemic of whooping cough here, says A. B. Pope, Stewart, Tenn., and Chamberlain's Cough Remedy has been the only medicine that has done any good." There is no danger from whooping cough, when the remedy is freely given. It completely controls the disease. Fifty cent bottles for sale by Power & Reynolds.

THE NEW CONSTITUTION.

Provisions to Prevent Any Inconvenience by the Alterations and Amendments Made.

SCHEDULE.
 That no inconvenience may arise from the alteration and amendments made in this Constitution, and in order to carry the same into complete operation, it is hereby declared and ordained:

First—That all laws of the Commonwealth in force at the time of the adoption of this Constitution, not inconsistent therewith, shall remain in full force until altered or repealed by the General Assembly; and all rights, actions, prosecutions, claims and contracts of the State, counties, individuals or bodies corporate, not inconsistent therewith, shall continue as valid as if this Constitution had not been adopted. The provisions of all laws which are inconsistent with this Constitution shall cease upon its adoption, except that all laws which are inconsistent with such provisions as require legislation to enforce them, shall remain in force until such legislation is had, unless sooner amended or repealed by the General Assembly.

Second—That all recognitions, obligations and all other instruments entered into or executed before the adoption of this Constitution, to the State, or to any city, town, county or subdivision thereof, and all fines, taxes, penalties and forfeitures due or owing to this State, or to any city, town, county or subdivision thereof; and all writs, prosecutions, actions and causes of action, except as otherwise herein provided, shall continue and remain unaffected by the adoption of this Constitution. And all indictments which shall have been found, or may hereafter be found, for any crime or offense committed before this Constitution takes effect, may be prosecuted as if no change had taken place, except as otherwise provided in this Constitution.

Third—All circuit, chancery, criminal, law and equity, law and common pleas courts, as now constituted and organized by law, shall continue with their respective jurisdictions until the judges of the circuit courts provided for this Constitution shall have been elected and qualified, and shall then cease and determine; and the causes, actions, and proceedings then pending in said first named courts, which are discontinued by this Constitution, shall be transferred to, and tried by, the Circuit Courts in the counties, respectively, in which said causes, actions and proceedings are pending.

Fourth—At the general election on the first Monday in November, 1895, and every four years thereafter, there shall be elected a Governor, Lieutenant Governor, Attorney General, Auditor of Public Accounts, Treasurer, Secretary of State, Superintendent of Public Instruction, Commissioner of Agriculture, Labor and Statistics, and Register of the Land Office, for four years; provided, that the officers who shall be elected to fill the several offices provided for in this section, at the August election, 1891, shall hold their offices until their successors shall be elected and qualified; provided further, that the Governor elected in August, 1891, may appoint a Secretary of State and a Commissioner of Agriculture, as now provided by law, who shall hold their places until their successors are elected and qualified, as herein provided, unless sooner removed by the Governor.

Fifth—Members of the House of Representatives, and Senators elected at the August election, in 1891, and Senators then holding over, shall hold their offices until the 31st of December, 1892, and no longer. At the general election to be held on the first Tuesday after the first Monday in November, 1892, there shall be elected one Senator from each Senatorial district, and one Representative in each Representative district. The Senators then elected shall hold their offices respectively for two and four years, as shall be determined by lot at the first session of the General Assembly after their said election, and the Representatives shall hold their offices for two years. Every two years thereafter, there shall be elected for four years one Senator in each Senatorial district in which the term of his predecessor in office will then expire, and in every Representative district one Representative for two years.

Sixth—At the November election, in 1892, there shall be elected in each Circuit Court district, a Judge and Commonwealth's Attorney, who shall enter upon the discharge of the duties of their respective offices on the first Monday in January after their election, and shall hold their offices for five years, and until their successors are elected and qualified. At the general election in November, 1897, and every six years thereafter, there shall be elected in each of said districts, a Judge and a Commonwealth's Attorney, who shall hold their offices for six years and until their successors are elected and qualified. And at the times designated in this section, there shall be elected in each county in the State a Clerk of the Circuit Court, who shall enter upon the discharge of the duties of his office at the time, and continue in office for the same time as the Circuit Judge, and until his successor is elected and qualified.

Seventh—At the general election in November, 1894, there shall be elected in each county in this Commonwealth, a Judge of the County Court, a County Attorney, Sheriff, Jailor, Coroner, Surveyor and Assessor, and in each Justice's district one Justice of the Peace and one Constable, all of whom shall enter upon the discharge of the duties of their offices on the first Monday in January after their election, and continue in office three years, and until their successors are elected and qualified. At the general election in November, 1897, and every four years thereafter, there shall be elected in each county the above-named officers, who shall hold their offices for four years and until their successors are elected and qualified; provided, that at the general election in November, 1892, there shall be elected in each county a Sheriff and in each Justice's district a Constable, who shall hold office for two years, and the Sheriff shall be ineligible to election to said office for the succeeding term. The Sheriffs now in office for their first terms shall be eligible to re-election in 1892.

Eighth—All officers who may be in office at the adoption of this Constitution or who may be elected before the election of their successors, as provided in this Constitution, shall hold their respective offices until their successors are elected or appointed and qualified as provided in this Constitution.

Ninth—All city and town officers in this State shall be elected or appointed, as provided in the charter of each respective city and town, until the general election in November, 1893, and until their successors shall be elected and qualified, at which time the terms of all such officers shall cease; and at that election, and as their terms of office may thereafter expire, all officers required to be elected in cities and towns by this Constitution, or by general laws enacted in conformity to its provisions, shall be elected at the general elections in November, but only in the odd years: Provided, however, that the terms of office for Police Judges who were elected for four years at the August election, 1890, shall expire on the 31st day of August, 1894, and the terms of Police Judges elected in November, 1893, shall begin on the first day of September, 1894,

and continue until the November election, 1897. Tenth—The quarterly courts created by this Constitution shall be the successors of the present statutory quarterly courts in the several counties of this State; and all suits, proceedings, prosecutions, records and judgments now pending or being in said last named courts shall, after the adoption of this Constitution, be transferred to the quarterly courts created by this Constitution, and shall proceed as though the same had been therein instituted.

Eleventh—Should the office of Register of the Land Office or the office of Jailor be abolished by the General Assembly, as authorized by this Constitution, then as to such officer or officers the provisions of this schedule shall not apply.

The trustees of the M. E. Church, South, have generously offered the M. E. Church Sunday school their house for Children's day exercises on next Sabbath. The exercises will, therefore, be held there.

The Children's Day exercises at the Reform Church on Sunday last, consisting of dialogues, recitations, &c., were well attended, the house being full. The selections were good, and it would be hard to particularize any effort, as the participants all did credit to themselves and instructors.

Dr. Bowman, U. S. Consul at Tien Tsin, China, turned home on a two-months vacation on Saturday last. The genial doctor was warmly welcomed by his old-time neighbors and friends, and he is almost constantly surrounded by a wondering audience listening to the tales of the heathen, whose "ways are dark and tricks are vain."

MAYSVILLE.

Mrs. Elizabeth Anderson went to Maysville Tuesday to spend a few days.

J. A. Jackson's is headquarters for all kinds of fruit jars, cans, &c., at bottom prices.

The storm last Saturday did a great deal of damage, blowing down fences, trees, &c.

We had a heavy wind storm Monday evening. No damage done. Rain enough to lay the dust.

We have stores now at every cross road, and there would be more but there are not enough roads.

Trade is very quiet in this place, and people who owe a debt never think a fellow wants money.

We interviewed a party from Plutonium a few days since and he reports the blackberry crop abundant.

The work on the new Christian Church is progressing slowly but surely. Commenced laying brick last Tuesday.

Those indebted to J. A. Jackson would confer a great favor on him by calling and settling at once. He needs the money.

There is a good deal of new roofing needed in this place. Let some good man from Maysville come out and prospect.

We had on Thursday night last the heaviest rain of the season and a great deal of wind, thunder and lightning.

We had a severe wind storm Wednesday evening last week, and a good rain Thursday morning, which made a good tobacco season.

H. M. Warder moved last week to his new house at Helena Station, lately completed for him by Thomas Wells, of Maysville. We are minus one more good family.

A goodly number went to Fairview last Sunday to hear the champion debater John S. Sweeney preach, but for some cause he did not put in an appearance, to the regret of all. But we were highly entertained by Elders F. M. Tindler and G. W. McGarvey, Jr., and by the fine singing, (but no organ.)

VANCEBURG.

R. D. Wilson has been appointed Auditors Agent for Lewis County.

Miss Lina Barnes, of Indianapolis, is visiting Miss Netta Stricklett.

The new hotel building at Stone City, which was not quite completed, blew down last Wednesday.

James Adams was injured last Wednesday by a tree falling on him during the terrific gale on that day. His injuries are not serious, however.

A lengthy trestle work at Trace, on the Kinnickinnick railroad, fell Monday when about half completed. Two men were slightly injured and by them lost their lives.

The commencement exercises of Riverside Seminary were largely attended and were a prominent success. The seminary, under the management of Prof. Rolfe and wife, has been well attended and has given satisfaction to its patrons.

Samuel Truesdale, of Sand Hill, lost a horse by his barn being blown on it last week. He was about to enter the barn with two horses when it fell, and doubtless he and his two horses would have been killed had he been a few minutes sooner.

Circuit Court began here Monday with an unusually large crowd present. Mr. Andrew Cochran, Mr. H. Wadsworth, Hon. T. H. Paynter, Hon. Ed. Dulin, Hon. E. L. Worthington and Judge Bennett were the attorneys in attendance from other points. Sylvester Cooper was adjudged not guilty of the charge of stealing money.

Burns Chapter No. 74, R. A. M., exalted three candidates last Thursday night, after which they had an elegant banquet at St. Nicholas Hotel.

Mr. Louis Rose and James H. Salter, of the Maysville Chapter, were present. Eight persons have received the degrees in this Chapter at the last two meetings, and there are that many more petitioners to receive the degrees in the near future.

HELENA.

We are having plenty of rain now.

E. R. Davis was in Paris Tuesday on business. Dr. King, of Maysville, visiting relatives here.

A great deal of tobacco is being delivered this week.

Mr. Newton Hudson, of Cincinnati, is here talking life insurance.

RETSOF MINING SALT CRMPANY'S

ROCK LUMP SALT FOR CATTLE

To FARMERS, STOCK-RAISERS and OTHERS:

It is not generally known that the use of common loose salt for cattle, horses, sheep and hogs, is injurious to them, but such, however, is the fact. Their nature requires only so much salt as will be absorbed by the saliva. By the ordinary method of salting, more or less of the loose salt is carried undissolved into the stomach, causing irritation to the membranes and coating. In many well authenticated instances the death of sheep, and attacks of colic and other difficulties in horses and cows have been traced to this cause. It is very desirable, therefore, that some method of salting stock be employed. The most suitable form of salt for this purpose is furnished by nature in the Rock or Mineral Salt, and the best possible method of supplying it to stock is to place lumps of it in the mangers and other places where it can be easily reached, when required by them. It goes four times as far as common salt, and is cheaper at any reasonable price. Any stock will do 20 per cent. better by using our Rock Salt. They do not have that terrible thirsting for water caused by using common salt, which contains large quantities of lime and magnesia, our salt being the only salt known free from these impurities.

FOUR former slaves of the late General Taylor, of Newport, have recovered judgment against the estate for about \$50,000, and the Court of Appeals has affirmed the decision. They were willed the property by Taylor.

ONE of the most substantial improvements made in Maysville this season is the large three-story brick business house just completed by Mr. George H. Heiser, opposite the opera house. It is a handsome addition to that part of the city.

THE Methodist Episcopal Church of this city will have Children's Day services next Sunday morning. The programme is very beautiful. It is entitled "Pearl Gathering." Religion will be represented by a Queen and she will be addressed by many speakers from the school. The singing will be under direction of Mr. G. W. Bloom.

Here and There.

Colonel C. B. Childs is in town and is the guest of Mr. W. H. Wadsworth, Jr.

Miss Alberta Caldwell, of Shannon, is visiting her aunt, Mrs. Mary Caldwell, of Millersburg.

Misses Rosa and Abba Pickett have returned home from Cincinnati, where they attended school the past session.

Miss Sallie Rains left yesterday for Yellow Springs, O., to visit relatives. She was accompanied by Miss Ida Collins, of Flemingsburg.

Mrs. Lizzie Wadsworth has returned from Knoxville, Tenn., where she has had charge of the music department of a school the past session.

Mrs. George Andrews and daughter May Belle, of Georgetown, O., have returned home after a visit to her parents, Mr. and Mrs. Samuel Smith, of West Third street.

Mrs. Dr. Phister and daughter, Mrs. Mrs. Duke, attended the marriage of Miss Anna Poyntz Anderson to Dr. Harry Negley, which took place yesterday at "Belleferme," the home of the bride's parents, near Newport.

Mr. Ben Preston, after an exceedingly pleasant visit to his nephew, Colonel Frank S. Owens, and to relatives in the county and at Lexington and vicinity, left yesterday for his home at Independence, Mo. He was accompanied by his sister, Mrs. Herndon, and his son-in-law, Rev. Mr. Mayden, and wife.

Almost a Mob at Paris.

The Bourbon News says: "Early Monday night, about twenty-five colored men assembled at the foot of Vine street, and others gathered in different portions of the city, to be in readiness to repulse any mob of white citizens that should attempt to take from the jail and lynch Dick Johnson, the colored man who grabbed several prominent ladies on the streets last week. They marched to Main street, when Marshal Mernaugh, with the assistance of several citizens, arrested and jailed seven of the self-appointed troopers. One of them, a man named Murray, attempted to escape and was shot in the ankle by Marshal Mernaugh. Everybody had guns, and for a time a general riot seemed imminent, but the crowd soon dispersed. From what we can learn, there was no thought of doing mob violence to Johnson, although public sentiment is against him."

The above affair was greatly exaggerated yesterday. A report was sent out that the negroes had attempted to rescue Johnson and that four of them were killed and one wounded.

A Small Blaze.

The alarm of fire last evening between six and seven o'clock was caused by a small blaze at Mr. Henry Rasp's store and home on East Second street. A towel that was hanging near a gasoline stove on the second floor caught fire in some way and the gasoline ignited from this. Mr. Rasp attempted to throw the stove out of the window, but did not succeed. Some neighbors had arrived on the scene by this time and the stove was picked up and carried down stairs and out on the street. The tank contained nearly a gallon of gasoline and it was burning all this time, but fortunately there was no explosion. Damages trifling.

Mr. Rasp was slightly burned, some of the gasoline falling on his hands. He desires through the BULLETIN to return thanks to all who assisted him in putting out the fire.

The Fair and Races.

Beginning this afternoon a committee will wait on the citizens of Maysville during the week and solicit subscriptions to the premium list of the approaching fair. Subscriptions will also be asked to aid the fair company in building a floral hall. Owing to the recent heavy loss the members of the company sustained by the burning of their amphitheater, they hope that the people will be as liberal as possible.

Nothing is being left undone to make the approaching fair and races the best ever held on the grounds. The company has decided to have, among other attractions, a running race each day. This will make four races every day of the fair.

Dennis Crow Pardoned.

Dennis Crow, who was convicted at the recent term of the Circuit Court of robbing a young man named Breeze, and given one year in the penitentiary, was pardoned yesterday by Lieutenant-Governor Bryan.

Crow was discharged from the jail in the afternoon. It is to be hoped his experience will serve as a timely warning to him.

Cincinnati Tobacco Market.

(Tuesday.)

The offerings were composed mostly of low grade old and new, with old in the majority. Prices show no change from last week's figures, being steady, firm and active. Bidding was lively on all good stock, but few offered. Colony trash and lugs hold their own well, and clean strippers are in demand.
Mediums are firm and find ready takers at full values. Among the old offered there was but little sweet tobacco, and much new was in bad order. The receipts promise to eclipse those of last week.
Of the 533 hhd's, 142 sold from \$1 to \$3.90, 109 from \$4 to \$5.36, 65 from \$6 to \$7.50, 53 from \$8 to \$9.95, 72 from \$10 to \$14.75, 66 from \$15 to \$19, and 16 from \$20 to \$24.25.

BOSTON, June 10.—The day's session of the printers' convention was opened at 9 a. m., with a full attendance. It was voted that delegates from unions in arrears to the local body be given seats in the convention, although the committee on credentials had reported adversely on such delegates.

A communication from Ottawa, Ont., signed J. D. Thompson, acknowledging the receipt of a dispatch of condolence, sent by the convention to the widow of John A. Macdonald, was read by the secretary.

The report of the standing committee on laws was taken up, and Section 71 was so amended that dues hereafter must be paid in cash instead of orders. It was voted that all matters of amendments relating to hours of labor be referred to a special committee of five.

The following recommendation by Mr. McCracken, of Galveston, Tex., brought out a wide range of views, there being decided opinions advanced against action taken with the contract system: "The power to make contracts, agreements and the regulation of all matters pertaining to scale of prices shall rest in the local unions, but no local union shall have power to make a contract affecting its scale of prices for a longer period than two years." The amendment was concurred in.

An invitation from the reception committee to visit Nantasket beach at 12 and partake of a clam-bake was accepted by a vote of the convention. President Gompers, of the American Federation of Labor, was introduced, and discussed the aspects of the labor cause. Amendment to the constitution passed to give twelve or more district unions the basis of one representative to each 500 members to meet semi-annually. At 12 noon the convention adjourned to attend the clam-bake.

S. O'Rourke, of this city; M. D. Shaw, Esq., of St. Louis, and Frank Sweeney, of Chicago. Another public meeting will be held in the evening.

Imitating Rip Van Winkle.

MILWAUKEE, June 10.—John Vanderhove, the carmaker who went to sleep in the foundry at the West Milwaukee shops last Thursday, still sleeps. He is bolstered up in a chair with his head on his breast. A MONSTER STEEL GUN.

It is 440 Inches Long and Each Charge Will Cost \$260.

NEW YORK, June 10.—The first twelve inch steel gun made in the United States has been completed at the army gun factory at Watervliet arsenal, West Troy, and is now on its way to Sandy Hook to be tested. It is the largest steel gun ever built in this country, but there are twelve thirteen-inch guns under way for the three battle ships of the navy—the Indiana, Massachusetts and Oregon.

The twelve-inch army gun is the first of sixteen of its type ordered by the government and has been building since 1888. Although it was necessary to send abroad for the largest forgings, it will not be necessary in the future to do so for either the army or navy, for the reason that American steel manufacturers now have the furnaces and mechanical appliances to produce the largest forgings. The tube and jacket forgings for this twelve-inch steel gun were purchased from the works at Creusot, France, and the remaining forgings were purchased from the Midvale steel works, Pittsburgh.

The finished gun is 440 inches long, the length of the bore being 408 inches, and the total weight of the gun is fifty-two tons. It will be fired with a charge of 440 pounds of powder, sending before it a projectile weighing 1,000 pounds. Each charge will cost \$260. The initial powder pressure will be sixteen and one-half tons to the square inch and the initial velocity of the projectile will penetrate thirty-two inches of iron, and twenty inches at a distance of two miles. The gun is to be mounted on the pneumatic disappearing gun carriage at Sandy Hook and will receive the statutory test of 250 firings.

Children Injured by an Explosion.

NEW YORK, June 10.—An explosion of powder occurred yesterday in the yard of the house 233 East Forty-eighth street, where a number of children were playing, burning the following named severely, but not seriously: Thomas and Hugh Maguire, aged 8 and 7; John and Martin O'Connell, aged 5 and 8; Daniel Burns, aged 14; Jacob Levy, aged 11, and Morris, Barry and Gusie Walters, aged 14, 11 and 7 years. The explosion was of a coil of blasting fuse, with some loose powder at the end, which Jacob Levy, aged 11, stole from a contractor's supply. He lighted the fuse while his companions looked on. One child, Harry Walters, will probably lose his sight.

Poles Displeased With America.

CHICAGO, June 10.—A colony of about twenty-five Poles left last evening for New York en route to the land of their nativity. One of the men remarked that the colony was returning to Poland to remain permanently, not being pleased with America. They were induced to come over by flattering reports sent out of a country full of gold mines, lucrative positions, free homes, etc. They did not find the Garden of Eden pictured in their minds, and longed for the old home and its easy, quiet mode of life.

Robbed of \$40,000 on a Train.

CHICAGO, June 10.—E. D. Thayer president of the Brandon, Vt., National bank, had \$40,000 in notes and mortgages stolen from his coat in a Rock Island sleeping car near this city. When nearing Chicago he went into the dining car, leaving a satchel containing the valuables on the seat. When he returned it was gone. The police have been informed of the robbery, but have little hope of recovering the property.

Passenger Train Derailed.

ST. JOSEPH, Mo., June 10.—At 12:30 o'clock yesterday morning the Burlington and Missouri passenger was derailed near this city. A large quantity of mud taken from the water works reservoir slipped down the high embankment with great velocity and crushed the mail car. William Addington, of Wyomere, Neb., the engineer, was badly hurt; S. Haddock, also of Wyomere, was seriously injured; Duke McMannus, of Frankfort, Ky., fracture of arm. The passengers were badly shaken up.

Duel Between Two Mountain Men.

The death of the latter is expected at any moment.

Confederate Money Makers Arrested.

INDIANAPOLIS, June 10.—Maj. Carter, of the United States secret service, arrested at South Bend, yesterday, the makers of Confederate money and seized the printing presses on which it was made.
